

The **accurate selection of raw materials as well as the long-lasting experience and competence** are **TREBI's** main features and at the same time guarantee for high quality standards in the field of **refrigerated cells, seasoning cells and processing rooms**

Our systems can be used in the following sectors:

-

processing and preservation of fruit, vegetables, yogurt, fish, etc...

-

processing, preservation and seasoning of meat, salamis and cheeses

-

preservation of nursery products

-

processing and preservation of wine products

-

logistic systems for the preservation of goods subject to temperature control
